RESEARCH & TEACHING INTERESTS

Research: Service operations, Healthcare, Retail, Customer experience, Machine learning methodology.

Teaching: Business analytics, Management science, Predictive analytics, Prescriptive analytics.

EMPLOYMENT

California State University San Marcos, CA

Assistant Professor of Business Analytics

2025 – present

Department of Operations, Supply Chain, and Business Analytics

EDUCATION

Emory University, Atlanta, GA

Ph.D., Information System & Operations Management

2019 – 2025

- Dissertation: Essays on Online Retail Operations

Explores consumer behavior and decision-making in retail environments, focusing on channel management, personalization, consumption patterns, and pricing. Examines how firms can optimize their strategies to enhance consumer experiences and maximize revenue simultaneously. Provides novel insights into decision-making processes, offering actionable frameworks for improving pricing, product presentation, and omnichannel engagement in an evolving retail landscape.

- Co-advisors: [Diwas KC](#) and [Donald Lee](#)

- Committee members: [Daniel McCarthy](#) and [Nikolay Osadchiy](#)

Koç University, Istanbul, Turkey

Graduate Studies in Operations Management & Information Systems

2016 – 2018

Boğaziçi University, Istanbul, Turkey

B.A., Business Management

2012 – 2016
